Professional Summary

Hands-on experience in building and optimizing real-world mobile applications. Experienced in Flutter UI development, REST API integration, state-driven UI handling, and collaborative Git workflows. Worked on production-style systems during an internship at IIT Kanpur, contributing to scalable software modules.

Education

B.Tech – Computer Science and Engineering	2022–2026
Chhatrapati Shahuji Maharaj University, Kanpur	
AISSCE (Science)	2022
Don and Donna Convent, Shahjahanpur	
AISSE	2020
Don and Donna Convent, Shahjahanpur	

Experience

R&D Intern	Aug 2025–Dec 2025
IIT Kanpur – Hybrid	
- Built the Routing Manager for Bhraspati-4, improving node connectivity reliability by 40%. - Engineered a dynamic Routing Table reducing stale-node lookups by 30%. - Streamlined routing logic, lowering latency by 25–35%. - Analyzed and resolved performance issues in Dart modules while maintaining Git workflows.	

Projects

Bhraspati-4 (B4) – Routing Manager

Dart, Distributed Systems

- Built and maintained the Routing Manager supporting decentralized communication.
- Improved routing accuracy through dynamic node tracking and optimized path selection.

Mom's Magic – Utility App

Flutter, Dart

- Created a cross-platform Flutter application with structured UI architecture.
- Utilized reusable components and modular logic to enhance maintainability and performance.

QR Code Scanner & Generator App

Flutter, Dart

- Built a cross-platform application enabling real-time QR code scanning and generation.
- Integrated camera-based scanning with fast and accurate decoding mechanisms.
- Generated QR codes dynamically from user input with efficient data handling.
- Delivered a responsive and user-friendly interface for seamless interaction.

Skills

Mobile Development: Flutter, Dart, Responsive UI, Custom Widgets, Navigation, Animations

State Management: Provider, BLoC (familiarity)

Backend & APIs: REST APIs, JSON, API Integration, Debugging

Firebase: Authentication, Firestore (fundamentals)

Tools & Workflow: Git, GitHub, Android Studio, VS Code, Postman

Core CS: OOP, Data Structures, Code Optimization, Problem Solving

Achievements

- Contributor at GirlScript Summer of Code (GSSoC) 2025.
- Experience working in research-oriented and startup-style development environments.
- Built multiple real-world Flutter applications focusing on performance and usability.
